

AndroFeme® 1% Testosterone Cream for Women

Tested - Affordable - Proven - Effective - Quality

Our clinical trials^{1,2} have demonstrated AndroFeme® testosterone cream increases serum testosterone levels and is clinically effective in addressing low libido in women.

AndroFeme® is the only pharmaceutical grade testosterone cream for women available in the world.

1. A double-blind, randomized, placebo-controlled trial of the effect of testosterone cream on the sexual motivation of menopausal hysterectomized women with HSDD. *Climacteric* 2007; 10: 335-343.

2. Transdermal testosterone therapy improves well-being, mood, and sexual function in premenopausal women. *Menopause* 2003; 10: 390-398.
